

WHAT IS RECYCLING 101?

Recycling 101 is an online, self-paced course created in partnership with the Association of Oregon Recyclers and OSU's Professional and Continuing Education. Recycling 101 students engage with thought-provoking text and multimedia to learn how their own waste prevention choices can positively affect our planet's natural resources. Learn more at pace.oregonstate.edu/recycling.

WHO CAN TAKE RECYCLING 101?

Recycling 101 is the perfect choice for current and prospective employees in sustainability-centered industries, those who plan to implement recycling systems in their organizations and those who want to improve recycling in their communities. Gaining a Recycling 101 Certificate will benefit business owners, teachers, community leaders and others.

WHAT WILL I LEARN IN RECYCLING 101?

- Facts about waste and why we need to reduce, reuse and recycle
- Steps in the material stream process and product life cycles
- Composting systems to reuse and recycling organic waste
- Procedures for safe and legal toxic waste disposal methods
- Resources available for plastics, paper and other types of recycling

HOW CAN I TAKE RECYCLING 101?

You can enroll in the Recycling 101 Certificate or take any of the Recycling 101 short courses. The short courses contain the same information as the certificate but are presented as eight separate modules. Register at pace.oregonstate.edu/recycling.
